PROFESSIONAL SUMMARY

Android Developer with **4.5+ years of Android experience** and **2.3+ years of Flutter experience**, building production apps across social media, fintech, and mobility. Strong in Kotlin, Java, Flutter, MVVM/Clean Architecture, Firebase, and REST APIs. Led a native **Android-to-Flutter migration**; contributed to **10+ published apps** on Google Play and the App Store. Mentored 2 junior developers.

TECHNICAL SKILLS

Native Android: Kotlin, Java, Android SDK, Jetpack (Compose, ViewModel, LiveData, StateFlow/Flow, WorkManager, Room, Paging 3, DataStore), SQLite, Coroutines, XML/ViewBinding, Material 3, Background & Foreground Services, WebView, CameraX, Camera2, ExoPlayer, Glide, Picasso

Architecture: MVVM, Clean Architecture, Repository Pattern, Dependency Injection (Hilt), SOLID, OOP, Performance Optimization

Backend / APIs: REST APIs (Retrofit, OkHttp), WebSockets, Firebase (Auth, FCM, Analytics, Crashlytics)

Payments: Stripe, Google Play Billing (In-App Billing)

Testing: JUnit, Mockito, Espresso, Flutter Test, Widget Testing, Mocktail

Flutter / Cross-Platform: Flutter, Dart, Provider, Riverpod, BLoC, GetIt, Dio, Hive, SharedPreferences

Integrations: FCM Push Notifications, Google/Facebook Login, AdMob, Google Maps SDK, Custom Chrome Tabs, Deep Linking

Security: JWT Authentication, SSL Pinning, Encrypted Storage, ProGuard/R8

Methodologies: Agile, Scrum, Sprint Planning, Cross-Functional Collaboration, Code Reviews, Release Management

Tools & Deployment: Android Studio, Agile/Scrum, JIRA, Git, Postman, Gradle,App Signing, ProGuard/R8, CI/CD (GitHub Actions), Google Play Console (Android), App Store Connect (iOS)

PROFESSIONAL EXPERIENCE

Android Developer | **Ahead Websoft Technologies Pvt. Ltd.** ***Jul 2025 – Sep 2026 | Gurgaon, India***

ClubDunes *– Social Community App – Android (Kotlin), REST APIs, Firebase, MVVM, Coroutines, ExoPlayer* **Google Play**

- Built a Dubai-based social community app (Kotlin) with posts, comments, and member interactions driven by REST APIs, plus Firebase for Google Sign-In and FCM for push notifications. 100+ downloads, 5.0-star rating on Google Play.
- Implemented the event booking module (event listings, join/RSVP flows, member profiles) using MVVM and Coroutines for a clean, maintainable codebase.
- Optimized feed performance with Paging 3 pagination and Glide image caching for smooth scrolling.
- Added deep linking, embedded WebView content, and Custom Chrome Tabs for Stripe payment flows.

SocialEngine Mobile App [Flutter] *– Social Networking Platform – Flutter, Dart, REST APIs, Firebase, MVVM* **Google Play | App Store**

- Independently led the Android (Kotlin) to Flutter migration end-to-end, rebuilding UI, navigation, and state management with full feature parity; shipped to Google Play and App Store. 1,000+ downloads, 4.3-star rating across 54 reviews.
- Built a TikTok-style short-video (clips) feature in Flutter.
- Integrated REST APIs for content sharing, activity feeds, and engagement modules, with Firebase for Google Sign-In and FCM push notifications; reduced regression risk with unit and widget testing (Flutter Test, Mocktail).

SocialEngine Chat [Flutter] *– Social Media Messaging – Flutter, Dart, Firebase, REST APIs, GetIt, MVVM* **Google Play | App Store**

- Built a real-time chat app (MVVM) for 1:1 and group messaging across 5 content types, with upload/download progress, read receipts, typing indicators, and paginated history.
- Applied GetIt dependency injection; integrated REST APIs, with Firebase for Google Sign-In and FCM push notifications, plus deep links opening the relevant chat and automatic login from the SocialEngine app.

Android Developer | **I-Next Web Technologies Pvt. Ltd.** ***May 2024 – Jul 2025 | Chandigarh, India***

HappyTask *– Service Booking Platform – Android (Kotlin), Jetpack Compose, WebSockets, REST APIs, Deep Linking* **Google Play**

- Architected and shipped the app end-to-end across 15+ service categories; cut booking completion time by 40% by redesigning the booking UI flow and optimizing API pipelines.
- Cut notification latency by 90% by replacing polling with a WebSocket-based push system, and added a deep-linking layer for third-party navigation into specific service screens.

BaOui *– Language Learning Platform – Android (Kotlin), Firebase* **Google Play**

- Grew the app to 1,000+ downloads across 30+ languages, shipping listening, reading, and review/recall practice modules.
- Used Firebase for dynamic content delivery, enabling curriculum updates without a new app release.

GreenRide Africa [Flutter] *– Ride-Hailing & Mobility App – Flutter, Dart, REST APIs, Google Maps* **Google Play** | **App Store**

- Scaled a cross-platform ride-hailing app to 5,000+ downloads — pickup/destination selection, upfront fare estimation, live driver tracking, and Google Maps-based ETA monitoring.
- Delivered REST API-driven auth, booking, pricing, trip management, and safety features, plus cash/mobile money payments (MTN, Airtel) and localization (English, French, Kinyarwanda).

Freelance Android & Flutter Developer ***Feb 2024 – Apr 2024***

- Delivered freelance Android and Flutter work across multiple client apps — bug fixes, feature improvements, and Play Store publishing/support.

Android Developer | **I-Exceed Technology Solutions Pvt. Ltd.** ***Feb 2022 – Jan 2024 | Bengaluru, India***

Appzillon *– Digital Banking / Low-Code Platform – Android (Kotlin, Java), Appzillon Framework, Firebase, Espresso, JUnit*

- Implemented Android 14 compatibility updates for the Appzillon IDE (Camera and File Operation modules), and built Photo Picker, Barcode Scanning, Camera, and File Operations features using Java and Kotlin.
- Integrated SIM Binding, SMS, and SIM information features for mobile network management; built Universal Deep Linking for inter-app navigation, plus Network, SMS, and GPS listeners for real-time updates and background operations.
- Implemented push notifications, WebView, AdMob, theme switching, Google Maps SDK, and Custom Chrome Tabs across multiple application workflows.
- Wrote automated tests with Espresso and JUnit, and delivered modules across Local, UAT, and Production environments in Agile sprints, from business requirements through deployment; resolved 30+ UAT and production defects.

EDUCATION

B.Tech, Information Technology – Ajay Kumar Garg Engineering College, Ghaziabad ***Aug 2017 – Sep 2021***

CERTIFICATIONS & ACHIEVEMENTS

• Introduction to Flutter, Simplilearn • Kotlin Masterclass 2023, Udemy • Android Dev Masterclass (Java), Udemy • 5-Star Core Java, HackerRank
