PROFESSIONAL EXPERIENCE

Ahead Websoft Technologies Pvt. Ltd. | Flutter & Android Developer

Jul 2025 - Sep 2026 | Gurgaon, India

Social Engine App - Flutter, Dart, Firebase, REST APIs, MVVM, State Management [Play Store](#) - [App Store](#)

- Led the native Android (Kotlin) to Flutter migration end-to-end - rebuilt UI, navigation, and state management (Provider, Riverpod) with full feature parity, reaching **1,000+ downloads and a 4.3-star rating**.
- Reduced regression risk with unit/widget tests (Flutter Test, Mocktail); shipped the Flutter iOS build to the App Store alongside the native Android release, maintaining feature parity across platforms.

SocialEngine Chat App - Flutter, Dart, Firebase, REST APIs, GetIt, MVVM, State Management [Play Store](#) - [App Store](#)

- Built and shipped a real-time, end-to-end encrypted Flutter chat app (MVVM) supporting secure 1:1 and group messaging - text, image, video, and file sharing - released on Google Play and the App Store.
- Applied GetIt-based dependency injection for testability and clean layer separation; integrated REST APIs and Firebase for authentication and push notifications to ensure reliable message delivery.

Clubdunes App - Android (Kotlin), Firebase Realtime Database, MVVM, Coroutines [Play Store](#)

- Built a community social app handling **concurrent real-time reads/writes** on Firebase Realtime Database, optimizing query structure to keep the app responsive under load and sustaining a 5.0-star rating.
- Added deep linking and embedded WebView content for seamless in-app navigation; implemented Custom Chrome Tabs for Stripe payment flows.

May 2024 - Jul 2025 | Chandigarh, India

GreenRide Africa - Ride-Hailing & Mobility App - Flutter, Dart, REST APIs, Google Maps, Real-Time Tracking [Play Store](#) - [App Store](#)

- Scaled a cross-platform Flutter ride-hailing app to **5,000+ downloads** - built pickup/destination selection, fare estimation, live driver tracking, and Google Maps-based ETA monitoring.
- Delivered REST API-driven auth, booking, pricing, and trip management, plus safety features, wallet/mobile-money payments, and localization (English, French, Kinyarwanda).

HappyTask App - Service Booking Platform - Android (Kotlin), WebSockets, REST APIs, Deep Linking [Play Store](#)

- Cut booking completion time by 40%** by redesigning the UI flow and optimizing API pipelines across 15+ service categories.
- Cut notification latency by 90%** with a WebSocket-based system replacing polling; added deep linking for third-party navigation.

BaOui App - Language Learning Platform - Android (Kotlin), Firebase [Play Store](#)

- Grew the app to **1,000+ active users across 30+ languages** with listening, reading, and spaced-repetition modules.
- Used Firebase for dynamic content delivery, enabling curriculum updates without new app releases.

I-Exceed Technology Solutions Pvt. Ltd. | Android App Developer

Feb 2022 - Jan 2024 | Bengaluru, India

Appzillon App - Microservices Banking Platform - Android (Kotlin), Appzillon Framework, Firebase

- Delivered feature modules across Local, UAT, and Production environments within Agile sprints, working as part of a cross-functional team and collaborating closely with designers, product managers, and QA.
- Implemented push notifications, webview, AdMob, theme switching, a collapsing toolbar, and Google Maps SDK/Custom Chrome Tabs integrations; investigated and resolved production defects to improve platform stability.
